Professional Summary

Senior Frontend Engineer with 6+ years of experience in architecting and developing scalable, high-performance web applications using React.js, Vue.js, and other modern frontend technologies. Expertise in UX/UI engineering, micro-frontends, and system architectures. Proven track record of leading frontend development teams, implementing best practices, and driving innovation. Passionate about creating efficient, maintainable, and responsive frontend systems that align with business goals and enhance user experience.

Professional Experience

Senior Software Development Engineer | SDE 3   (December 2022 - May 2024)
HighLevel | Remote
- Led the architectural design and implementation of a micro-frontend architecture, increasing system agility and responsiveness.
- Contributed to product scalability, enabling growth from 15k to 75k sub-accounts within a year.
- Enforced coding standards and conducted thorough code reviews to ensure high code quality and maintainability.
- Collaborated with cross-functional teams to align frontend development with business goals.

Senior Frontend Engineer   (May 2021 - December 2022)
Attryb | Bengaluru
- Spearheaded the technical roadmap for frontend development, ensuring alignment with business objectives.
- Led product development initiatives, launching new products and features using React.js.
- Mentored junior developers, fostering a collaborative and growth-oriented development environment.
- Implemented performance optimizations, resulting in improved user experience and system efficiency.

UX/UI Designer   (February 2019 - April 2021)
Virtual Diamond Boutique (VDB) | Gurugram
- Developed a centralized design system to streamline frontend development processes.
- Introduced automation in design workflows, improving efficiency and collaboration across teams.
- Designed and implemented intuitive user interfaces, enhancing overall user experience.

Frontend Developer   (July 2017 - February 2019)
Orgzit | Delhi
- Built and maintained new frontend features using modern JavaScript frameworks.
- Pioneered an intuitive onboarding flow, reducing the learning curve for new users.
- Contributed to product-market fit validation, helping increase high-paying B2B clients from 0 to 10.

Technical Skills

- **Core Technologies:** React.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3.
- **State Management:** Redux, Vuex, Pinia.
- **Build Tools & Module Bundlers:** Webpack, Vite.
- **Testing:** Jest, Cypress, Mock Service Workers (MSW).
- **Performance Optimization:** Web performance optimization techniques, lazy loading, code splitting.
- **Architecture:** Micro-frontends, Single Page Applications (SPA), Progressive Web Apps (PWA).
- **Other:** RESTful APIs, Responsive Design, Cross-browser Compatibility, Accessibility Standards.
- **Version Control:** Git, GitHub.
- **CI/CD:** Jenkins.
- **Cloud Platforms:** Google Cloud, Amazon Web Services (AWS).
- **Design Tools:** Figma, Sketch.

Education

Bachelor of Technology, Computer Science and Engineering (B.Tech, CSE)   (August 2012 - May 2016)
Amity University | Haryana, India
